

Environmental Policy Statement

As a professional and environmentally aware company, Allstore Services Ltd recognises the potential impact that its operations may have on the environment. The company aims to minimise this impact by:

- ◆ Taking steps to eliminate or reduce, as far as is reasonably practicable, potentially adverse environmental impacts;
- ◆ Preventing pollution, reducing waste and ensuring – whenever practical – that the natural habitats of flora and fauna are protected and preserved;
- ◆ Promoting environmental awareness among our contractors, suppliers and partners;
- ◆ Implementing effective and timely control, investigation and reporting procedures in the event of an incident
- ◆ Considering the effects of our operations on the local community and behaving in a considerate and socially responsible manner.

Implementation of this policy is the responsibility of both management and supervisory staff, who should ensure that environmental issues are given adequate consideration in both the planning of activities and the day-to-day supervision of work.

While the Directors have overall responsibility for the environmental policy, all employees and sub-contractors are expected to assist in its implementation, ensuring that their work activities – so far as is practicable – are carried out without risk to themselves, to others or to the environment. This includes full co-operation with management on any environmental matter.

Allstore Services Ltd undertakes to comply fully with the duties set out within the requirements of statutory legislation, and also to comply with the requirements stated within Approved Guidance as issued by the Environment Agency and other organisations.

The company will take all necessary steps to ensure that potential hazards and risks to the environment are identified and that effective control and prevention measures are employed, including the provision of proper instruction and training.

The operation of this environmental policy and its associated procedures will be monitored and reviewed regularly to ensure that they remain current, relevant to the activities of Allstore and effective.
